

Patrici-WHA?!
 Patriarchy: a hierarchical social & gov't system in which men hold the power and women are largely excluded from it. Patriarchy is embedded in gender roles, social interaction, ~~main~~ mainstream culture, and politics. **BOTH MEN + WOMEN** perpetuate patriarchy.

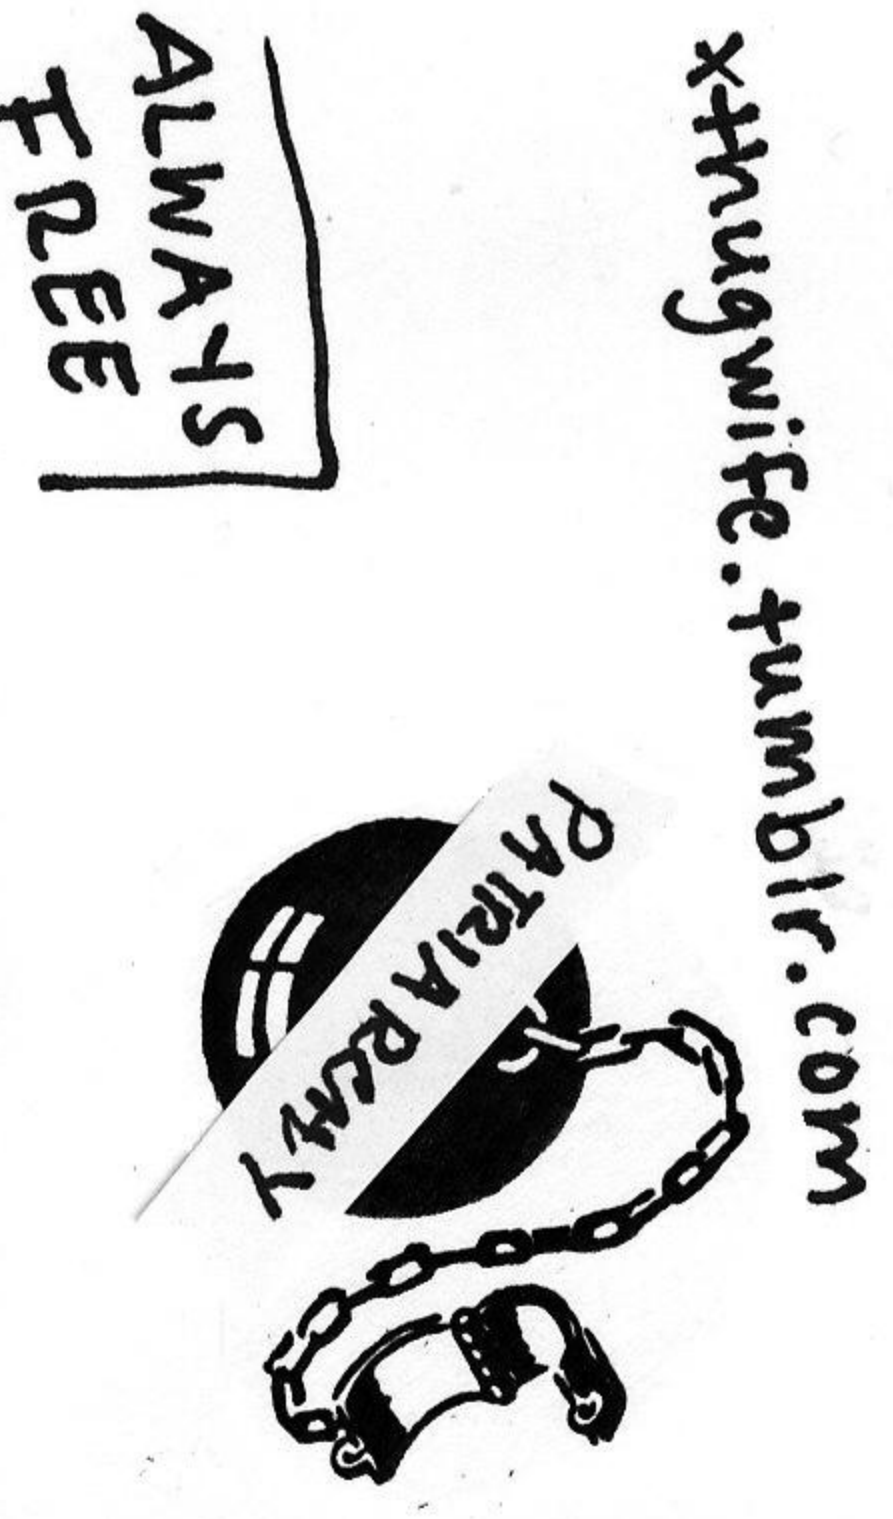

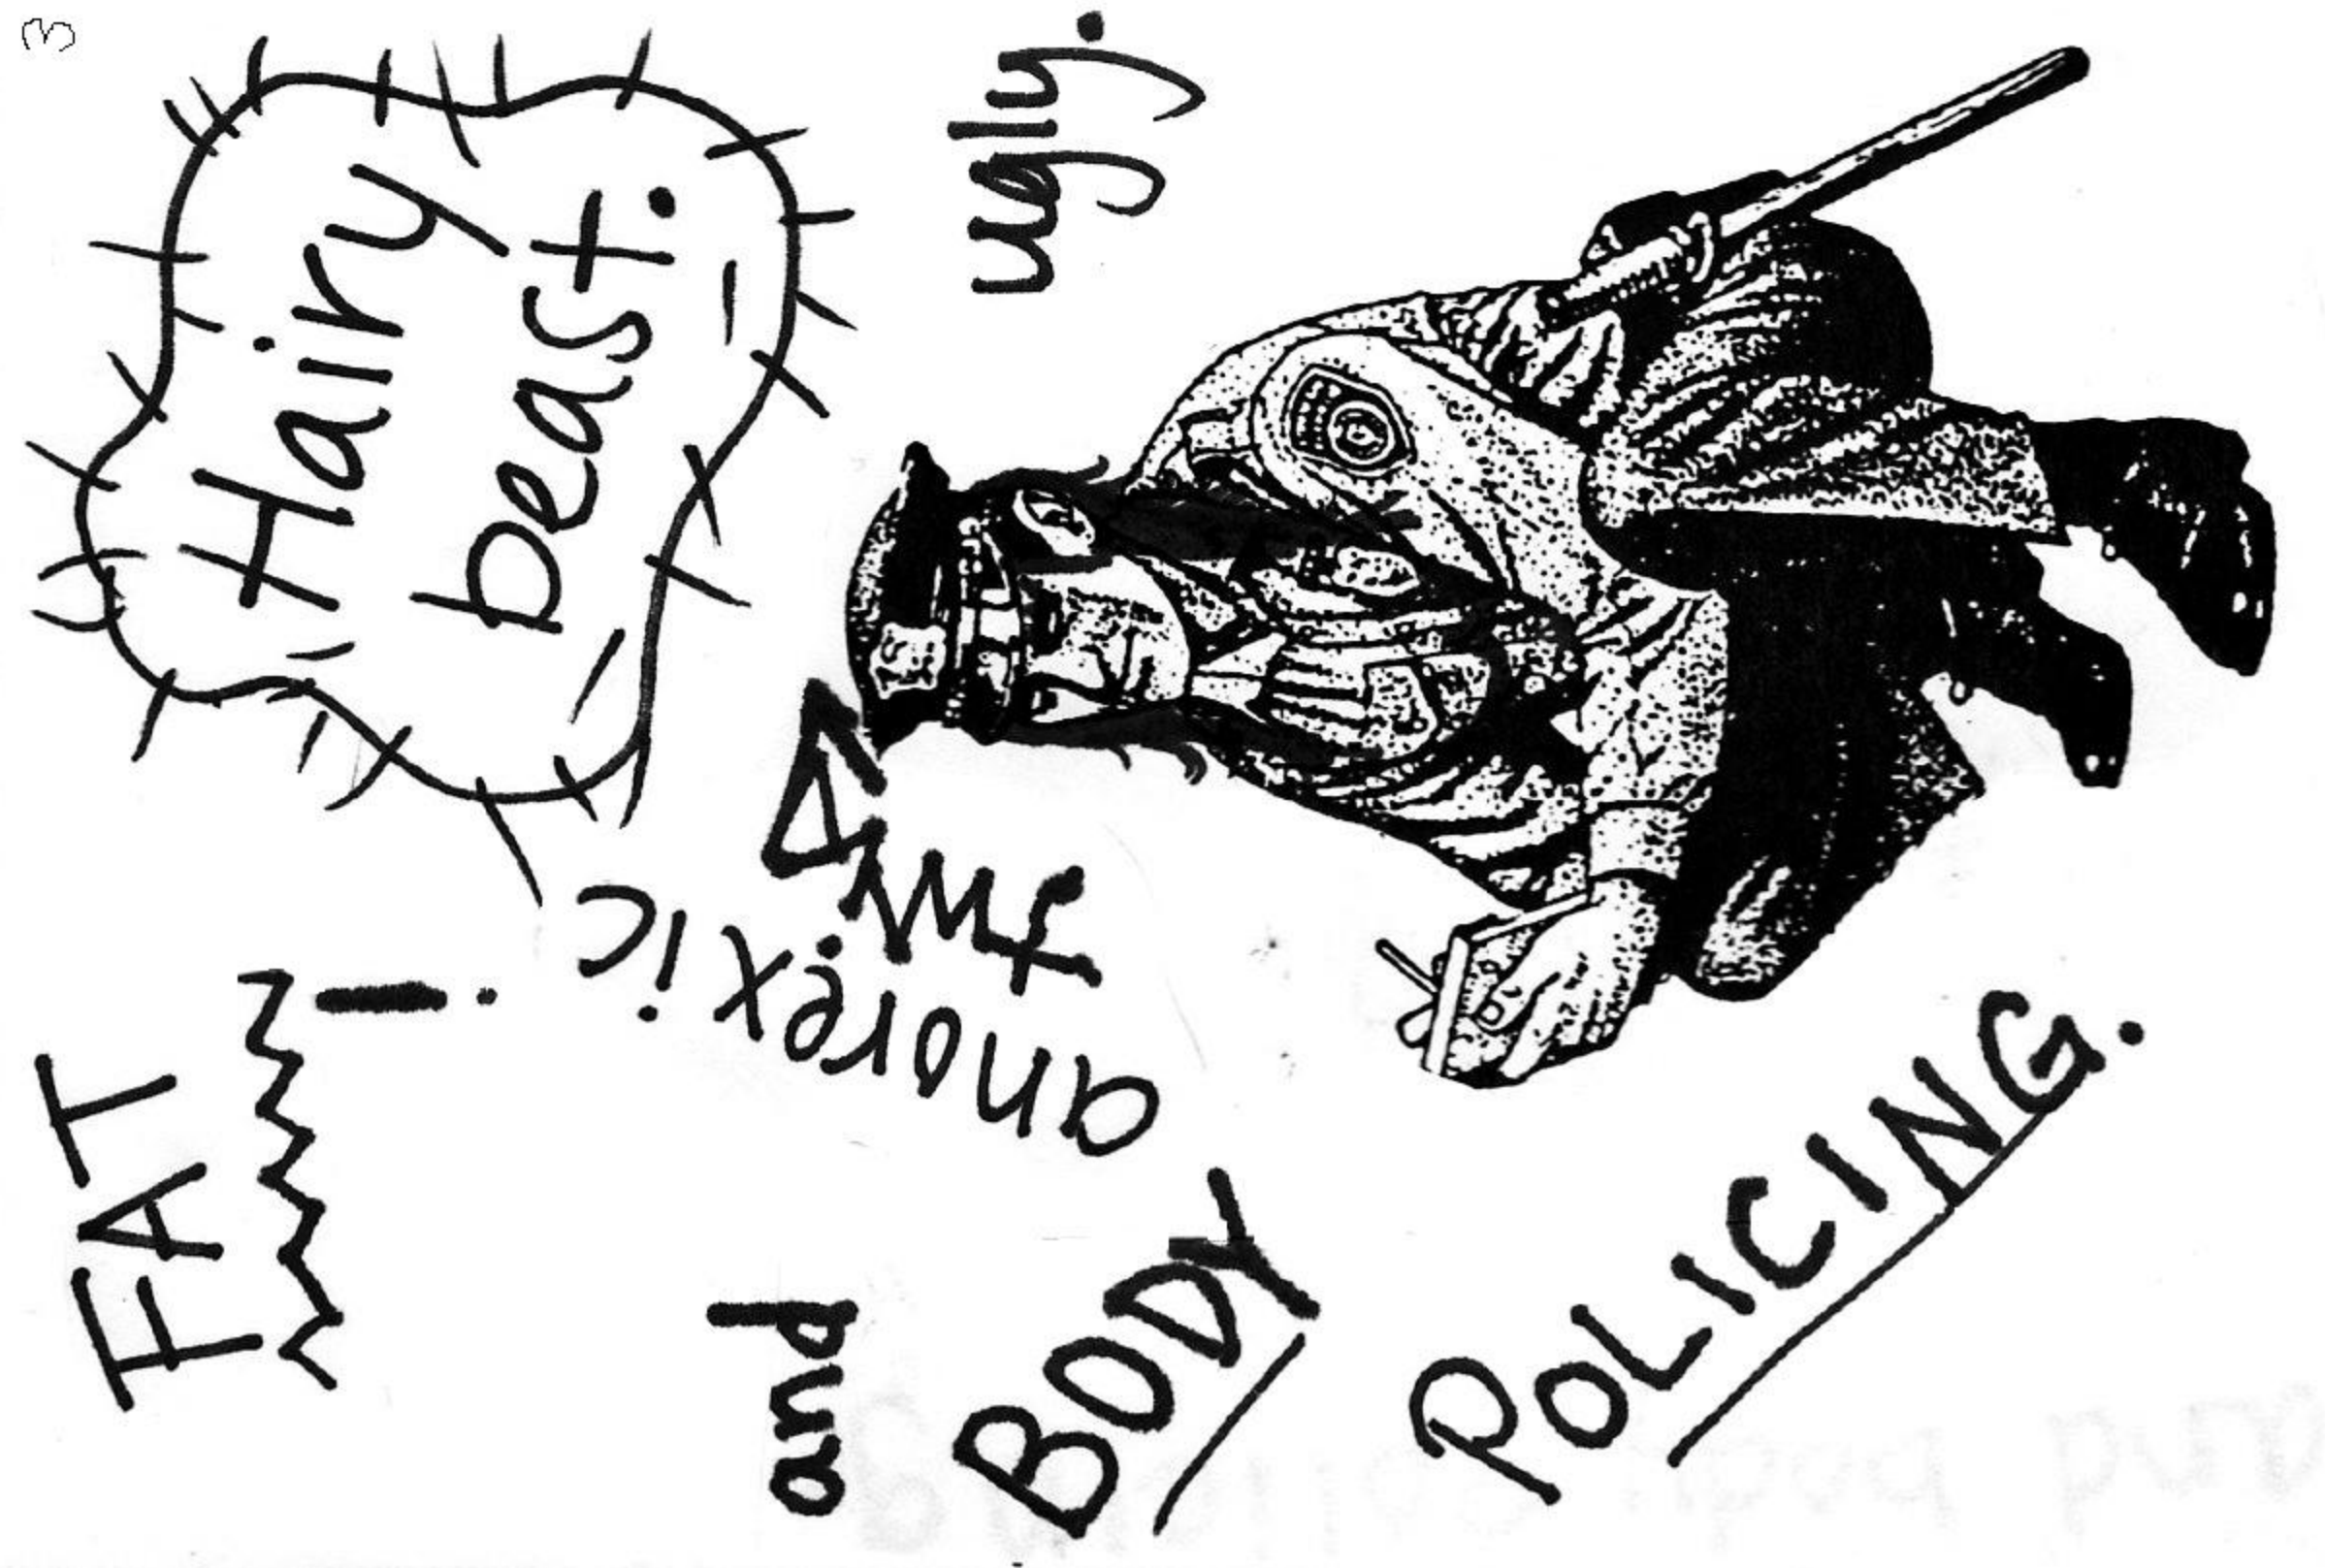

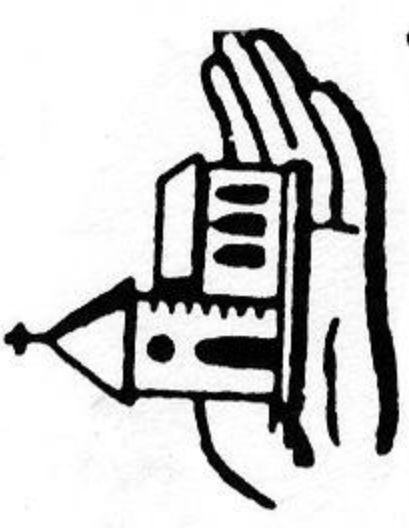

A common condition of overexposure to chronic girl-on-girl hate is **INTERNALIZED OPPRESSION** - when those who are oppressed or abused view the world and themselves through the lens of their oppressor. In this case, the culprit is once again **PATRIARCHY**.

Instead of policing each other, police patriarchal behavior used to keep us against one another.

Dear God, jk about earlier, end patriarchy instead.

BUT GOD ISN'T LISTENING.

TOGETHER is BETTER!

As well as slut-shaming, name calling...

WHAT happened

We can't fight patriarchy if we're too busy fighting each other. **A ZINE.**

These days, we live in a world where girl on girl hate is much too common.

Dear God, please give me the strength to refrain from unleashing the pain on her sorry ass.
